DETAILED ACTION

The following action is in response to the amendment filed for application 10/782,046 on May 5, 2006.

Drawings

The drawings were received on October 13, 2005. These drawings are approved.

Terminal Disclaimer

The terminal disclaimer filed on October 13, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,773,373 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 9-11, 13-15, and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the method for optimizing a kick-down upshift point speed as claimed, and particularly including determining an output speed gradient reflecting a road inclination; determining a speed offset representative of a time interval required for the engine output speed to reach a maximum engine output speed; applying the speed offset as an adjustment to the upshift speed point, and including the remaining controls of claims 9, 17 and 19 respectively. The present invention also particularly includes recalculating an intermediate value of the speed offset as a final value of the speed offset as a function of a driver activity by multiplying a characteristic line of the speed offset values by a factor that depends on driver behavior, and including the remaining controls of claim 15.

Art Unit: 3681

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
